Comment Questions

10. What were the strengths of this student in their capacity as a teaching assistant?

Simply put, this was the best TA I have ever had at this university. His mastery of the course material was so comprehensive that he could have easily taught the entire course himself, often explaining concepts more clearly than the professor. His discussion sections were more valuable than the lectures themselves.

His ability to break down complex topics into understandable components while maintaining academic rigor was extraordinary. When I left his sessions, I felt I truly understood the material rather than just memorizing it.

I honestly wish he could be my TA for every course I will take for the remainder of my degree. The university would be wise to recognize this exceptional teaching talent and utilize his skills more broadly across the department. Students who get him as their TA in the future should consider themselves incredibly fortunate.

Had lots of review material, which helped me better prepare for exams because the course did not give us much review material. Very knowledgeable and good at explaining concepts with relevant examples. Almost always had the answers and was able to help me troubleshoot. Answered emails very quickly and gave detailed responses.

Jadon is one of the most diligent TAs I know. I highly respect him and his knowledge. He is always a helpful person and responds immediately to emails. He assists in office hours and cares a lot about his students.

Very helpful during office hours with navigating project and clarifying coursework and difficult concepts.

Jadon is super knowledgeable and helpful. Honestly the best TA I have ever had.

Jadon is a great TA, both for Econ and Stats courses

Jadon is by far the best TA I have ever had. He knows everything about the class and his love for the material helps students to engage with it too.

11. What suggestions for improvement do you have for this student in their capacity as a teaching assistant?

More communication between the TAs and the professor. Even more practice with answer keys so students can review on their own.

None. I wish he was my professor.

It would be nice if we could sign up for one-on-one office hours even if for like 10 minute slots potentially.
